

Pharmacy Benefit Release

Norwich Medical Associates
12 Case Street, Suite 103
Norwich, Connecticut 06360
860-889-0147

Date: _____
Patient Name: _____

Formulary Benefits data are maintained for health insurance providers by organizations known as Pharmacy Benefits Managers (PBM). PBM's are third-party administrators of prescription drug programs whose primary responsibilities are processing and paying prescription drug claims. They also develop and maintain formularies, which are lists of dispensable drugs covered by a particular drug benefit plan. We may need access to your data as maintained by the PBM's to know what medications have been prescribed to you in the past, and to know which drugs are covered by your insurance plan. By signing below I give permission for Norwich Medical Associates to access my pharmacy benefits data electronically through Surescripts.

This consent will enable Norwich Medical Associates to:

- Determine the pharmacy benefits and drug copays for a patient's health plan.
- Check whether a prescribed medication is covered (in formulary) under a patient's plan.
- Display therapeutic alternatives with preference rank (if available) within a drug class for non-formulary medications.
- Determine if a patient's health plan allows electronic prescribing to Mail Order pharmacies, and if so, e-prescribe to these pharmacies.
- Download a historic list of all medications prescribed for a patient by any provider.

In summary, we ask your permission to obtain formulary information, and information about other prescriptions prescribed by other providers using Surescripts.

By signing below I am giving Norwich Medical Associates permission to access my pharmacy data through the practice PBM. Further I understand that I may revoke this information at any time by providing written revocation to Norwich Medical Associates.
